I wasn't sure what other departments have done. I don't have an issue of giving all groups access to all the cameras. Is that what most other agencies do? If so then I would be good with giving everyone the same access to all the cameras.

Good Morning,

I hope you had a great weekend. As an update, Pine Ridge Property Owners association, Villages at Palmetto Pointe, and Coosaw Point POA have all shared their cameras with you. I'm still waiting to hear back on a few other private cameras in the area.

Based on your current setup, Admins has access to 201 networks and then CID, Patrol and School Resource Officers only have access to 5 networks. You'll need to add any new networks to all the roles that should be able to access them at least once a week to keep it updated. I can do a bulk update for you if you let me know which roles should have access to all available networks.

Thanks,
Georgia

I have it broken down into 4 groups (Admin, CID, Patrol, and SRO's) and I wasn't sure if all roles would have access to all networks that share with us. Thoughts?

As TITLE for CITY/ COUNTY, I would like to formally request regional access to Lowe's owned Flock safety systems and/ or LiveView. This technology will assist in preventing or investigating criminal activity in the local community we both serve. Lowe's technology and my department's access to such will only be used for bona fide investigations, which are documented within our department and via audit trail within the Flock Safety platform. These investigative tools and technology will not be permitted for personal use, for use on unauthorized devices or by unauthorized users within our department. I understand if the technology is not used correctly, Lowe's reserves the right to terminate the department's access to Lowe's owned Flock safety systems and/or LiveView.
