Afternoon!

I know you're OOO but wanted to get a response to you. I'm still pending answers on system limitations to see if we can get the deployment plan updated to reflect both the pole owner and the property information.

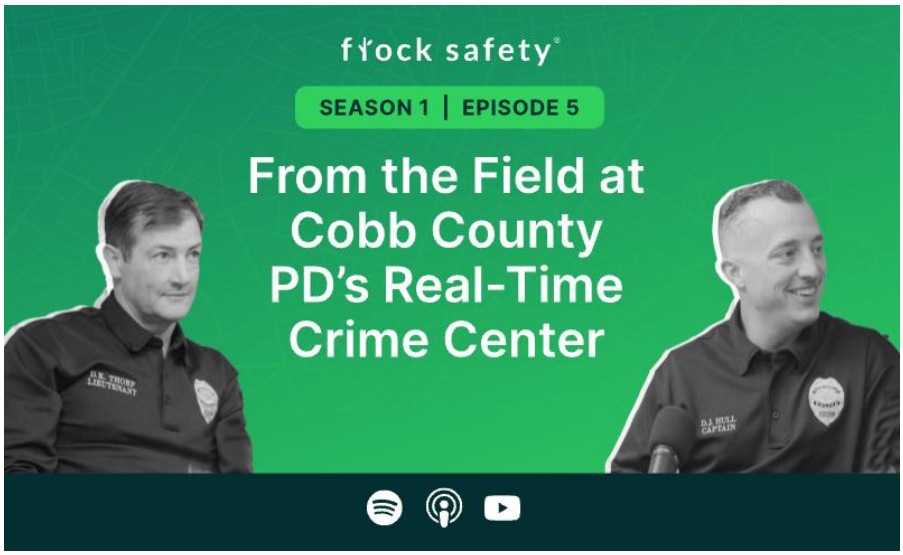

One question, please clarify what it means by Felicia "will NOT engage on pole attachments"? Though the Town of Bluffton will apply for the pole attachments, I wanted to ensure we're all on the same page as to the prerequisites for same. The utility companies won't approve a pole attachment application unless the property owner has approved first, which means the Town will need verification the encroachment permits were issued for any location where we're requesting pole attachments. ****** I just wanted to note the fact we are not engaging the utility company. It's understood that we need to know who owns the actual property.***

Last item, from my email of 12/9/24 (copied below for your convenience, has a determination be made as to the relocations of #16. We had it on private property but due to it being heirs property, we wanted to move it to County property. Flock had mentioned the new location was too far from the road and would provide options for us as to a better location. Do we have an update on this camera location? ***** I've nudged Shelby for an update.***

Thank you!

Good Afternoon,

Sending a quick e-mail to follow up on what we discussed today:

Locations #04, #11, #15, C#04: Requested Shelby update the "Permitting" section to indicate BOTH the Power Company (pole) as well as the actual property owner.

Locations pending CX (Chiefs) approval: #04, #10, #17, C#02.

Felicia will provide updates soon on County permits. She will NOT engage on pole attachments. The Town of Bluffton verbally approved the install on Town property.

We are holding ALL installs until all permits/permissions are received. Forecasting end of Feb / beginning of March install dates.

I think this sums it all up. I'll be in touch with updates!

-Heather

Good afternoon Heather.

Please see the Chief's comments below. If his next requested location is also not feasible, please provide your recommendation of a better location.

Thank you.

Subject: RE: Determination of Camera #16

Thank you, Constance. I would really like something in that area as it is a busier roadway/intersection for calls. Can we put it on the other side of the roadway and catch northbound traffic? I guess that would be better than not having one there. Thanks

Subject: Determination of Camera #16

Good afternoon Chief.

Camera #16 was located on Simmonsville Road SB at Bluffton Parkway. Amanda's research found the property

currently in litigation of heirs with no clear owner.

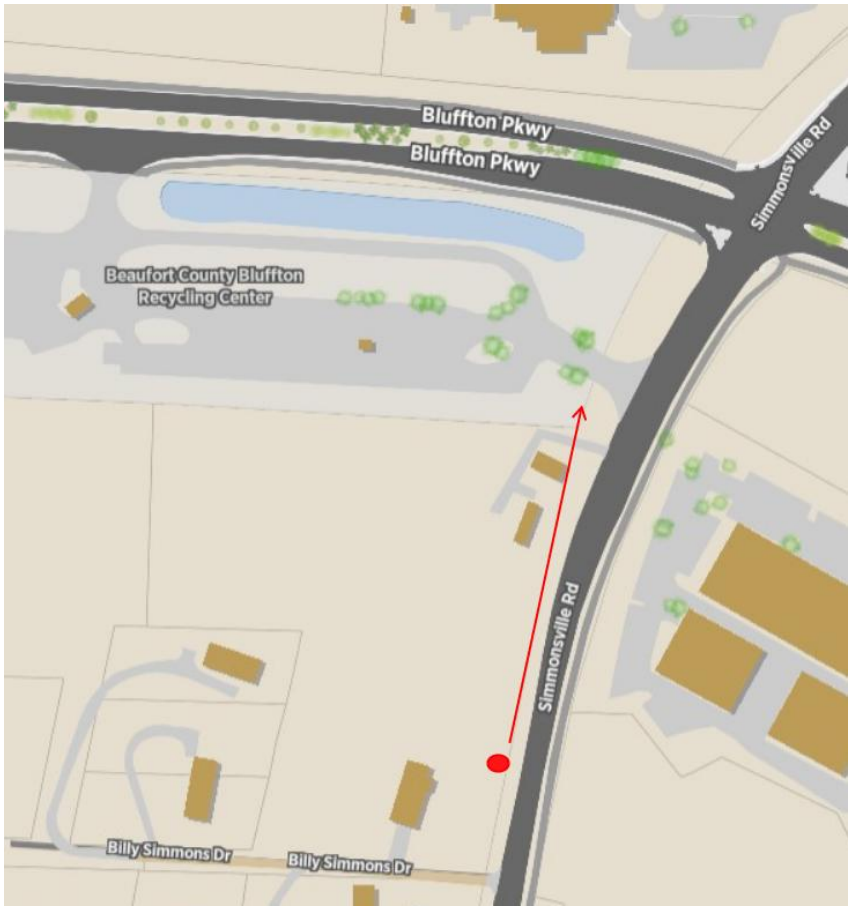

Per our prior emails, I requested Flock reposition the camera further north on County property due to the pending legal issues.

Flock advised this will be too far from the roadway.

The property between the roadway and County property is SCDOT.

Please advise if you want to locate the camera elsewhere or remove it from the plan.

Flock Deployment Plan can be found here https://planner.flocksafety.com/public/bebd2eeb-ed81-4102-b497-ba3018cf39c7?cat=d9701bcdf517

Good Afternoon,

Apologies I missed your call. I've been in back to back meetings most of the day. I'd like to get time set up together with my Permitting Manager. Unfortunately, she is out sick today. I set a time for tomorrow at 1:30PM. Please let me know if that does not work for you.

I tried to call, but got your voice mail. Please call me with Erin so we can sort throw these.

Thank you.

Good Morning,

I'm looping in my Permitting Associate @Erin Crouse to assist and answer any further questions. My understanding is that as of last week, our Permitting Manager followed up with the County for a status update. Robin Primus the Public Service Coordinator is going to provide her feedback after she reviews the pending locations. She left a message for Larry Beckler, the Public Service Director.

Locations #1,6,8,9,12,13,17 are submitted to Beaufort County.

Location #7 is submitted as well to the County, but it's City.

Can you elaborate on what specific information you might need?

Thank you,

Heather Phillips
