Subject: RE: Private Divisions Alert
Sensitivity: Normal

Thank you Georgia. I am trying to follow the video but I do not have the same thing as you. This is what I get when I go to edit a specific role. It does not allow me to change anything with the shared networks. I think it would be easiest if I just told you the places we would like to receive alerts on.

I would say everything within the town of Bluffton. This includes

Palmetto point, Townes at Buckwalter, Pine Ridge, and I think there may be a few others. Anything out of town we do not want to receive alerts on at this time.

Thank you for your help in this.

Good Morning,

Watch this video and then give me a call if you have any questions.

Instructions for Admins
1. Go to each role > ensure the hot list is turned on for the agencies and networks that are nearby and that you actually want to receive alerts from. If you provide me with a list of agencies, I can make sure they are all selected along with the private cameras in your area.

Instructions for your users
1. Go to Alerts > Select All Cameras from the left hand side

Palmetto Point, Pineridge, and The Townes at Buckwalter were three locations that you mentioned. I tried to figure out how to set up those notification but could not figure it out. Do you have step by step on how to do this. Thank you.
