Subject: Quick Updates - Bluffton PD + Flock Safety
Sensitivity: Normal

WARNING!
This email originated from outside of the Town of Bluffton's email system. DO NOT click any links or open any attachments unless you recognize the sender and know the content is safe.

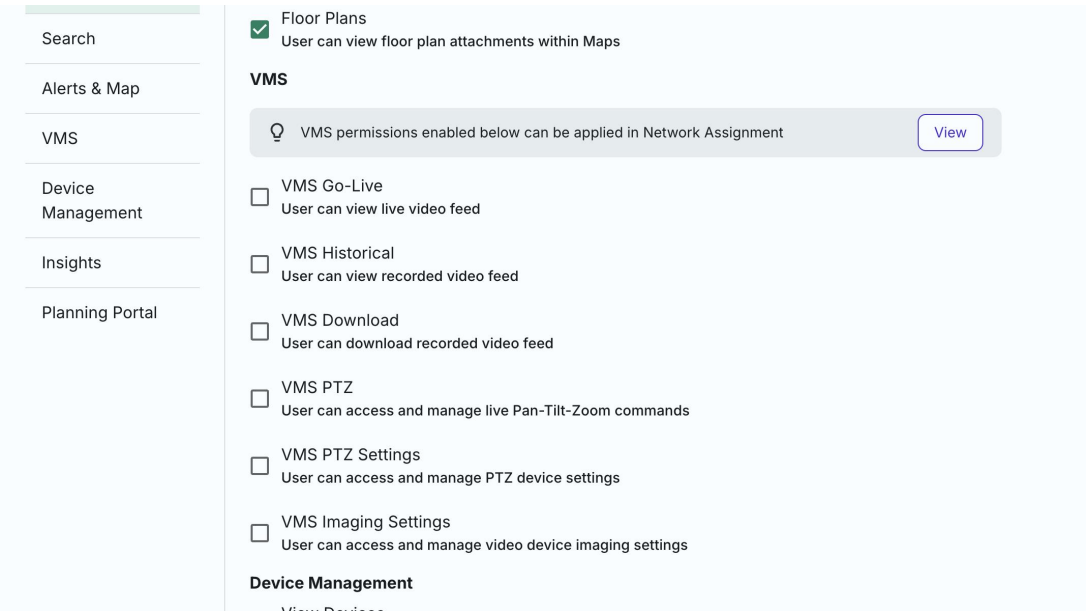

Good Morning,

I hope all is well. Heather let me know that 4 of your cameras were installed prematurely. I want to assure you that once we get all your cameras in the ground, we will issue a credit to make up for the time between your first camera getting installed and your final one. I apologize for the mistake on our end.

I also checked in on your account and noticed your Admin and CID roles are set up to access 312 networks but you have over 540 networks shared with you so far. I want to make sure you are aware that every time a new network gets shared with you, you then have to add it to each role in order for those users to have the ability to search across those cameras. I can do a mass update for both of those roles for you if you'd like.

I also noticed your roles don't have the VMS permission turned on yet. The VMS permissions allow users to view, edit, download the footage from your live video cameras as well as control the Condor PTZ camera. This isn't super urgent because you don't have the live cameras installed yet but while you're in the roles area to update the networks, you may want to go ahead and add those permissions in as well.

Lastly, you have a Lowe's nearby but I don't see that you've requested access to it yet. If you'd like to request access to Lowe's cameras, **please have your Head of Agency complete the template below.** Once completed and sent over to the email address below, Lowe's will review the template to make sure that the information has been completed appropriately and will usually grant access to all of the Lowe's cameras in the region within a week or two.

Email Template to be completed by the head of the agency BELOW

—

Email Subject Line- Lowe's Camera Share; Name of the Agency
Email Template sent to: todd.a.isenhour@lowes.com and CC emma.jensen@flocksafety.com

As TITLE for CITY/ COUNTY, I would like to formally request regional access to Lowe's owned Flock safety systems and/ or LiveView. This technology will assist in preventing or investigating criminal activity in the local community we both serve. Lowe's technology and my department's access to such will only be used for bona fide investigations, which are documented within our department and via audit trail within the Flock Safety platform. These investigative tools and technology will not be permitted for personal use, for use on unauthorized devices or by unauthorized users within our department. I understand if the technology is not used correctly, Lowe's reserves the right to terminate the department's access to Lowe's owned Flock safety systems and/or LiveView.

Name
Signature of Head of Agency, Chief of Police or Sheriff
Title

I'm sorry for the super long email - feel free to give me a call if you have any questions on the above or if there's anything else I can help you with in the meantime.

Best,
Georgia
